

SSF MyBooks™ is \_\_\_\_\_.

Real-time, web-based visibility into your financial information

Expert bookkeeping and accounting services scaled to your business needs

Freedom to focus on your business operations

Cost effective, professional accounting

Your outsourced bookkeeping solution

What is the difference between businesses that succeed and those that fail? It often boils down to *focus* and *information*. As the owner of a business or as a business executive, do you have the time you need to focus on the clients, products and operations that lead to your organization's success? Or, are you anchored down in the administration of the business, including its bookkeeping, payroll and accounting functions?

Sensiba San Filippo's MyBooks Team will give you back the time you need to focus on building your business. Your MyBooks Team will dedicate the time and attention necessary to provide up-to-date, accurate bookkeeping services and accounting records – allowing you to focus on making the important decisions that impact your company's well-being and success.

At a cost typically less than that of an on-site bookkeeper, MyBooks' services provide real-time, accessible accounting records and management reports that are available when you need them, giving you full control of your business.

### THE VALUE OF WORKING WITH MYBOOKS

**Fact-based Decision Making** MyBooks' real-time transaction processing equals real-time visibility into your business operations, allowing you to act on actual results, not guesswork.

**Value for Your Dollar** For what most companies would pay for a bookkeeper, your business will benefit from MyBooks' professional accounting experience, proven methodologies and review structure.

**Strengthen Your Internal Controls** Using MyBooks to handle your bookkeeping adds checks and balances that help safeguard your company assets.

## **HERE'S WHAT MYBOOKS' CLIENTS ARE SAYING**

**S.L., CEO** (technology outsourcing company, current MyBooks client)

*I didn't start my business to worry about accounting. Working with [the MyBooks Team] allows me the time and peace of mind to focus on my core competencies, not on the books. I know my books are ready when I need them.*

**D.I., Owner** (business consulting organization, current MyBooks client)

*Visionary, persistent. [MyBooks] thinks in front of issues and keeps things from falling between the cracks. I feel like we're their only client.*
